PROJECT #2022-119EC

RE: Notification of Project on 2022 DWSRF Emerging Contaminants Primary Project List

Dear Adam,

We have received the proposal and budget submitted by Sevee & Maher Engineers on behalf of MSAD 06 for remediation of PFAS in the drinking water supplies of Hollis Consolidated School, Frank Jewett School, Bonny Eagle Middle School, and Bonny Eagle High School. We will fund up to \$1,010,000 for this effort. This project is eligible for 100% Principal Forgiveness, up to \$1,010,000.

We are offering Funds from the State of Maine Drinking Water State Revolving Fund (DWSRF) Emerging Contaminant Capitalization Grant. An application will need to be submitted with the Maine Municipal Bond Bank. Please have your Project Manager work with McKenzie Parker of our office to ensure your project meets the guidelines for this funding. (McKenzie.Parker@maine.gov)

We are pleased the Maine Drinking Water State Revolving Fund (DWSRF) is able to provide financial assistance to MSAD 06 to fund these important infrastructure improvements. Please do not hesitate to contact us if you need assistance or have any questions regarding the DWSRF Program. We look forward to working with you on your project.

Sincerely,
Maine Drinking Water Program
